# Earth Energies and Environmental Healing Courses

*Want to know more about dowsing for earth energies?*

## Six courses to whet your appetite...

These courses are designed as a progression and follow on from attendance at a BSD Foundation Course or equivalent. Whether you are keen to enhance your appreciation of going to special places or have an ambition to be a professional specialising in geomancy, these courses are an excellent grounding in the subject. As usual all tutors are practising professionals.

You don't have to do all the courses in one year – once you have completed the first course (EE1), you could move on to EE4 and EE6 if that is what your priorities are. The courses we strongly recommend to be taken in order are EE1, 2, 3 and 5.

To gain the maximum from these courses you will need to practise as much as possible in between each one.

There is simply no substitute for learning with an experienced dowser in a small group of people. All BSD Registered Tutors are experts who undergo selection and monitoring. You will be learning from a tutor who is also a professional dowser.

Our courses are limited to 16 people so there's plenty of individual attention. Many tell us how much they also learn from others on the course - and good friendships are forged. So many times we are told how wonderful it is to be with a group of like-minded people, something you can't experience on-line.

Our tutors also have a responsibility to offer support after the weekend course is over, so that when you go on to practise what you have learnt, there's someone to encourage and advise you.

## Where are the courses held?

Courses are run in carefully chosen locations: good quality village halls in interesting places. Many are close to ancient sites such as stone circles, which will be visited as part of the course. Delicious lunches and refreshments are included and we can also provide a list for staying at local Bed & Breakfast.

## How do I book?

Just choose which course(s) suits you, then complete and send us your application form, including the special offer BSD membership fee of £30 if you are not yet a BSD member. We will then confirm your place and send you full information.

If you would like help and advice or to discuss the course options, please contact us and we will be most happy to help.

Please see the additional leaflets for our range of advanced courses on dowsing for health and water and site dowsing.

BSD may have to substitute a tutor if the one advertised becomes unavailable.

## Course Dates and Locations 2012
