

Spring Symposium 1st & 2nd April 2017

Saturday 1st April

Registration from 9.30 - 10.00

10.00 Welcome, Isabel Holroyd, President

Saturday morning workshops 10.30 - 13.00 (11.30 - 12.00 - coffee and tea break)

Delegates can choose one workshop from these four options for the Saturday morning workshop session.

Derek Woodhead, Chris Strong & Bill Holding

Dowsing tools and how best to use them

An opportunity to explore the capabilities of a range of dowsing tools and increase your skill - Pendulum, L-rods, V-rods, Double V rod, wand, aura meter and deviceless dowsing.

Anna Guerrier

Dowsing for Healing Remedies

In this workshop Anna will demonstrate how an ancient system of Radiesthesia can be used discover imbalances in our auras and what these relate to in terms of our health. We will go on to work out the specific remedies best suited to each person's energetic vibration to redress the imbalances. The choice of remedies encompasses whatever you choose to use, from flower remedies, colour or musical notes through to Homeopathic potencies.

Richard Summers & Nigel Twinn

Dowsing and Philosophy 'Down Under'

This workshop will outline the results of dowsing earth energies at Uluru (formerly known as Ayres Rock) and Kata Tjuta in the outback of Australia in the context of Aboriginal beliefs in song lines and dream time and the creation myth of the Rainbow Serpent. It will include opportunities to map dowse the mysteries of Uluru and to discuss the wider philosophy of dowsing for earth energies.

Fay Palmer

Building 'Miniliths'

This workshop will show how you can apply the principles of the citing and construction of megaliths (stone circles, standing stones and chambered cairns) to the construction of 'miniliths' in your own garden. You will learn how about dowsing for locations, specific below ground features and materials to use for the best results for your property. Such constructions remove detrimental enhance and can truly enhance and environment to be productive and functioning at its best on many levels.

Lunch 13.00 - 14.00

Saturday afternoon workshops 14.15 - 16.45 (15.15 - 15.45 coffee and tea break)

Delegates can choose one workshop from these four options for the Saturday afternoon workshop session.

David Charman

Energy Viewing

Learn a simple technique to switch from the eyes to the third eye to see the energy of everything!

Sandy McKenzie

The Power of Shapes: Energy Pendulums and Patterns

Expanding on her workshops at Conference, Sandy will introduce you to the remarkable capabilities of Thoth, "the" Egyptian pendulum; the energetic patterns collected and created by the Servranx brothers in Belgium; the famous 'Paper Doctor' patterns from the US.

Andrew Edgar

Maps and Dowsing

For beginners or experienced, here we will practice our map dowsing skills, working with a diverse range of maps and pictures, familiar and exotic. Will will think about our dowsing questions, share how we record our results, and explore the maps and images that we ourselves produce as dowzers.

Graham Wayt

Dowsing for Services - how to make a user manual

All buildings should have a manual showing where cables and pipes enter and leave the premises. This workshop is about how to use your dowsing skill to create a manual for your own home.
