

Saturday, 15 September 2017**Morning Workshop Session****Option 1: Sylvia Francke**

Practical Applications of Dowsing for the Nine Resonance Patterns.

Please bring your own pendulum and, if possible, a bottle of water from a source you would like to know more about

Option 2: Sue Turnbull

The Power of the Runes:

An introductory talk will be followed by a practical session looking at the runes and incorporating some dowsing. The workshop combines an overview of rune history, Sue's runes journey, rune reading (not as you know it!) and a practical session working with the runes using dowsing.

Runes will be available to work with, but do bring your own if you have them.

Option 3: Grahame Gardner

Dowsing Magic - Symbols, Signs, Shapes and Sigils

Programming the Quantum Wave.

Exploring the power and energetic resonance of geometric symbols and shapes, and showing how to encode your intention into the form of a sigil, which is a graphical distillation of will.

You will learn how to create them, what they can be used for, and how to activate them as you create your very own talisman.

Option 4: Jane Court

Psychic Protection - do you know who you are travelling with on the psychic highway?

An organic interactive discussion covering all aspects of psychic protection.

Afternoon Workshop Session**Option 5: Sylvia Francke**

Practical Applications of Dowsing for the Nine Resonance Patterns.

Please bring your own pendulum and, if possible, a bottle of water from a source you would like to know more about

Option 6: Willem Witteveen

The application of sound in Ancient Egypt

The workshop will be about the application of sound resonance in the Great Pyramid and will be demonstrated with a Tibetan sound bowl and water. It will show the importance of sound resonance on water molecules and the influence of sound resonance in general. In the same way sound was used as a healing method in Ancient Egypt. The influence of indirect and direct sound resonance on human cells. This is difficult to demonstrate as this effect is related to certain spaces in temples in Egypt. There are some special sound frequencies used for healing, frequencies close to our own brain frequencies. These frequencies were already used by the ancients in their specially designed temples and niches. Unfortunately, these effects can only be demonstrated in Egypt. Many of these 'healing places' are still in working order.

Option 7: Ann Lodygowski

Developing your animal communication skills, their feelings and needs

Please bring a small amount of fur, this can be from a brush, mane etc. You may also bring photographs.

Option 8: Jane Court

Psychic Protection - do you know who you are travelling with on the psychic highway?

An organic interactive discussion covering all aspects of psychic protection.

Sunday, 17 September 2017

Morning Workshop Session

Option 9: Thomas Warrior

Testing and harmonising the effects of Electrosmog and Geopathic Stress

In this workshop Thomas Warrior will demonstrate the practical application of testing and harmonising the burden from Electrosmog and Geopathic Stress in the human organism, employing the use of the Rayocomp PS1000 polar and the Rayocomp PS10, the two principle analysis and treatment devices of the Rayonex system in Bioresonance according to Paul Schmidt.

It will include testing for the burden of alternating electric and magnetic fields (i.e. low frequency radiation from electricity) and for pulse-modulated radiation (i.e. micro-wave radiation caused by wireless communication devices such as mobile phones, cordless phones, wireless routers, mobile phone masts, etc.), as well as for the burden of geopathic stress (i.e. water veins, geological faults and geomagnetic global grids), in the human organism.

Thomas will also demonstrate how these burdens can be reduced and harmonised, employing the use of biofield-forming devices produced by Rayonex Biomedical GmbH, such as the Duplex IV, Rayonators, the family of Rayex Devices, and the Mini-Rayonex.

Option 10: Willem Witteveen

The application of sound in Ancient Egypt

The workshop will be about the application of sound resonance in the Great Pyramid and will be demonstrated with a Tibetan sound bowl and water. It will show the importance of sound resonance on water molecules and the influence of sound resonance in general. In the same way sound was used as a healing method in Ancient Egypt. The influence of indirect and direct sound resonance on human cells. This is difficult to demonstrate as this effect is related to certain spaces in temples in Egypt. There are some special sound frequencies used for healing, frequencies close to our own brain frequencies. These frequencies were already used by the ancients in their specially designed temples and niches. Unfortunately, these effects can only be demonstrated in Egypt. Many of these 'healing places' are still in working order.

Option 11: Sue Turnbull

The Power of the Runes:

An introductory talk will be followed by a practical session looking at the runes and incorporating some dowsing. The workshop combines an overview of rune history, Sue's runes journey, rune reading (not as you know it!) and a practical session working with the runes using dowsing. Runes will be available to work with, but do bring your own if you have them.

Option 12: Fay Palmer & Sean Ferris

Now you see it...

In this practical workshop Fay and Sean will demonstrate how easily energy lines can be created, and how these can be influenced to be positive or negative. Fay will demonstrate how to dowse and plot out the energies from objects, and show how changes to proximity and size all cause

changes in the interactions. Sean will examine how created negative energies are impacting the health of a person when they come into contact, and how these effects can be alleviated or increased. Sean and Fay guarantee you will go home and look at the layout of your furniture and possessions in a whole new light!

Afternoon Workshop Session

Option 13: Thomas Warrior

Testing and harmonising the effects of Electrosmog and Geopathic Stress

In this workshop Thomas Warrior will demonstrate the practical application of testing and harmonising the burden from Electrosmog and Geopathic Stress in the human organism, employing the use of the Rayocomp PS1000 polar and the Rayocomp PS10, the two principle analysis and treatment devices of the Rayonex system in Bioresonance according to Paul Schmidt.

It will include testing for the burden of alternating electric and magnetic fields (i.e. low frequency radiation from electricity) and for pulse-modulated radiation (i.e. micro-wave radiation caused by wireless communication devices such as mobile phones, cordless phones, wireless routers, mobile phone masts, etc.), as well as for the burden of geopathic stress (i.e. water veins, geological faults and geomagnetic global grids), in the human organism.

Thomas will also demonstrate how these burdens can be reduced and harmonised, employing the use of biofield-forming devices produced by Rayonex Biomedical GmbH, such as the Duplex IV, Rayonators, the family of Rayex Devices, and the Mini-Rayonex.

Option 14: Ann Lodygowski

Lets go deeper. are there any aches or pains --- where and how can we help?

Please bring a small amount of fur, this can be from a brush, mane etc. You may also bring photographs.

Option 15: Fay Palmer & Sean Ferris

Now you see it...

In this practical workshop Fay and Sean will demonstrate how easily energy lines can be created, and how these can be influenced to be positive or negative. Fay will demonstrate how to dowse and plot out the energies from objects, and show how changes to proximity and size all cause changes in the interactions. Sean will examine how created negative energies are impacting the health of a person when they come into contact, and how these effects can be alleviated or increased. Sean and Fay guarantee you will go home and look at the layout of your furniture and possessions in a whole new light!

Option 16: Grahame Gardner

Dowsing Magic - Symbols, Signs, Shapes and Sigils

Programming the Quantum Wave.

Exploring the power and energetic resonance of geometric symbols and shapes, and showing how to encode your intention into the form of a sigil, which is a graphical distillation of will.

You will learn how to create them, what they can be used for, and how to activate them as you create your very own talisman.
